

## Education

The University of Miami, Coral Gables, Florida

*Bachelor of Science, Interactive Media [UI/UX]*

*Expected December 2026*

**Minors:** Computer Science and Psychology.

---

## Experience

### **The University of Miami**

*Web Developer (part-time)*

October 2025 – Present

- ◆ Build, redesign, and maintain University of Miami web pages in Cascade CMS, implementing custom HTML, CSS, and JavaScript directly in the source code to create dynamic, responsive layouts.
- ◆ Collaborate with the client to define goals, gather feedback, and deliver timely, user-focused webpage updates aligned with university branding and accessibility standards.
- ◆ Manage complete webpage lifecycles—from concept and mockup to implementation and publishing—ensuring high-quality visual presentation and functional accuracy across devices.

### **Aegis Digital LLC**

*Developer (part-time)*

May 2025 – Present

- ◆ Design, prototype, and develop reusable, accessible UI components using HTML, CSS, and JavaScript, contributing to scalable, responsive component-based design systems within Sitecore.
- ◆ Update and manage website content in Sitecore based on client requests, ensuring accuracy, consistency, and alignment with brand standards across multiple pages.
- ◆ Manage and enhance event content in WordPress, creating, customizing, and optimizing event pages to meet client needs and improve usability and presentation.

### **Oberweis Dairy**

*Shift Leader (seasonal)*

January 2020 – August 2025

- ◆ Supervised and lead 7 team members during opening and closing shifts, including training new hires, and providing ongoing feedback to enhance performance.
- ◆ Upheld accurate cash register balances and store safe management, as well as handle bank check preparation and deposits.
- ◆ Tasked with inventory tallying, order placement/shipment, and distributing incoming mail and packages.

### **The Coder School**

*Lead Instructor (seasonal)*

May 2024 – June 2025

- ◆ Led and instructed summer camps for Python & Minecraft Education, fostering a collaborative learning environment.
- ◆ Provided personalized tutoring for Python and Scratch, enhancing students' coding skills.
- ◆ Developed comprehensive curriculum, daily schedules, lesson plans, and assignments.

---
